Administrative/Biographical History

The Tennessee General Assembly created the Board of Respiratory Care in 1998 to succeed the Board of Medical Examiners Council on Respiratory Care. Its mission is to safeguard the health, safety, and welfare of Tennesseans by requiring that all that practice respiratory care within this state are qualified. The Board interprets the laws, rules, and regulations to determine the appropriate standards of practice in an effort to ensure the highest degree of professional conduct. The Board is authorized to issue licenses and certificates to qualified candidates who have completed appropriate education and successfully completed required examinations. The Board is also responsible for the investigation of alleged violations of the Practice Act and rules, and is responsible for the discipline of licensees who are found guilty of such violation.
