Scope and Content Note

Don Sundquist (born 1936) was the 47th Governor of Tennessee. The Governor Don Sundquist Papers (1995-2003) represent an official record of those years. Totaling over 439 cubic feet or 877 filing boxes, the Sundquist papers have been arranged into nine series, each corresponding to a particular office in the Sundquist administration. Original arrangement of the collection is retained as much as possible. Duplicate copies of publications, correspondence and other items were removed from the collection during processing. State publications were removed from the collection and are catalogued with the library holdings. Included in the collection are photographs and a large amount of audio-visual materials. An inventory of each appears at the end of this finding aid. Also included in the finding aid is an organizational chart detailing the various Sundquist staff members, as well as a chart of the Executive departmental heads.

As previously noted, the collection is divided into series based on the particular functions of the Governor’s staff. The nine series are: Boards and Commissions; Chief Administrative Office; Correspondence; Legal Office; Legislative Office; Main Office files; Policy Office; Press Office, and Scheduling Office. A description of the contents of each series appears below:

**Series I  Boards and Commissions**

The Boards and Commissions office dealt primarily with accepting and evaluating candidates for the various boards and commissions in state government. State boards and commissions typically have one seat or more filled by a Governor’s appointee. Nominations were sent to the Governor’s office for review and appointments were made based on the qualifications of each nominee.

Within the series there are two subseries: “Working Folders” and “Members with Expired Terms.” The “Working Folders” division consists of information about potential nominees: biographies, resumes, and recommendation letters.

“Members with Expired Terms” consists of information about sitting board members, resignation letters, and responses from Governor Sundquist to resignations. Records in this subseries frequently date from before the Sundquist administration. Some board members had very long terms and each folder represents a particular seat on an individual board or commission; new members appointed to that seat were filed in the same folder after the previous member’s term expired. Some records date to the Blanton and Alexander administrations.

Records in this series are arranged alphabetically by board or commission, then alphabetically by the member or nominees’ last name within each board or commission.

**Series II  Chief Administrative Officer**

The Chief Administrative Officer’s records consist of reports and correspondence concerning departmental programs and the Governor’s initiatives. Also in this series are agendas and minutes to various meetings the Chief Administrative Officer attended on behalf of the Governor. Subjects in this series include Economic and Community
Development issues; education and juvenile justice reform initiatives; and health and mental health reports. All records are arranged alphabetically by subject.

Series III Correspondence Boxes 66-246

The Governor’s Correspondence Office was responsible for researching and answering the huge amount of correspondence received by the Governor on a daily basis. Thus, the Governor’s correspondence comprises a large amount of material in the collection. The general correspondence covers a wide range of subjects reflecting the concerns of Tennesseans at this time period, such as requests by school children for informational materials on Tennessee; requests for Tennessee flags; requests for autographed photographs of the Governor; state opinion ballots regarding issues in State government; assistance in securing employment; criticism of the proposed state income tax; opposition to the death penalty; the TennCare program; congratulatory letters; endorsements of contributors; child support issues, and many others of like concerns. The general correspondence is arranged by year and then within each year alphabetically by name.

Within the subject division of the correspondence may be found folders containing information on a broad range of subjects. The subject correspondence focuses on the central issues in the Sundquist administration. Correspondence between the Governor and the State department heads is included in the subject correspondence. Other important topics include: TennCare (primarily between the TennCare directors and the Governor’s office); the Church Arson Task Force; the Tennessee Valley Authority; the animal drop bins; the Philip Workman execution case; the Abdur’Rahman execution case; tax reform; and state park closings. Subject correspondence is arranged chronologically and then by subject.

Series IV Legal Office Boxes 247-369

The Legal Office dealt with the many lawsuits involving the Governor and State government. Within the Legal Office files are found several important lawsuits including capitol punishment cases and appeals and the tobacco lawsuit settlement. Also included are clemency cases appearing before the Governor during his administration. Each clemency case contains supporting documentation as well as correspondence. There are also several boxes of clemency cases from previous administrations dating to 1974.

The correspondence within the Legal Office is primarily interoffice correspondence detailing lawsuits involving State agencies. Other topics in the Legal Office files are Attorney General Opinions; financial disclosures; the Geier lawsuit; the Juvenile Justice Reform Commission; tax reform; and TennCare. County election returns are arranged in alphabetical order by county. Judicial appointments made by the Governor are arranged according to the appointee’s last name.

Series V Legislative Office Boxes 370-600

The Legislative Office dealt with matters concerning the Tennessee General Assembly (99th through 102nd) in relation to the passage of legislation supported and,
oftentimes, not supported by the Governor. Included in this series is correspondence between the various legislators and the Governor’s Office. The bulk of the series consists of copies of the legislation passed by the General Assembly during the Sundquist administration. Also included are copies of legislation proposed but not passed (labeled as “closed”). The legislation files may contain handwritten notes from the Governor’s office, as well as fiscal notes and other supporting documentation.

In the subject files are copies of the annual state budgets, Attorney General opinions concerning the constitutionality of legislation, and information from the various committees and subcommittees. The Legislative Office series provides a detailed record of gubernatorial initiatives during the Sundquist administrations.

Series VI   Main Office Files
Boxes 601-692

Main Office Files was a distinction assigned to records that deal with day-to-day office functions. This series is divided into several subseries, including agency reports, building commission meetings, campaign information, departmental files, administration platform documents, Sundquist’s personal office documents, subject-specific press clippings, and information regarding the State Quarter contest. The full text of Sundquist’s numerous speeches are also found in this series. All subseries are arranged alphabetically by subject.

This series also contains correspondence addressed directly to the Governor. Types of records found here include letters of congratulations, holiday cards, and requests for personal assistance. During the administration’s attempt at tax reform the subject dominated the correspondence received by the Main Office. Copies of responses from the Governor’s office were frequently retained as well. The correspondence in this series is arranged in chronological order, and alphabetically by the sender’s name within each date.

A major portion of this series is made up of Proclamations. Typically a proclamation was requested by an individual or group honoring a person, event, or cause. If the request was approved by the Governor’s office a proclamation was released describing the honoree and declaring the time frame of the proclamation. Only copies were retained by the Governor’s office, the originals were typically issued to the honorees. Requests for proclamations that were rejected have also been retained. Proclamations are arranged chronologically by year, and alphabetically by subject within each year.

Also of interest are the numerous records concerning the preparations for “Tennessee 200,” Tennessee’s Bicentennial celebration. Included in this series are all of the Governor’s records concerning this event, including program descriptions and planning; project funding; grant applications; and correspondence citing difficulties that arose in the planning and implementation of Bicentennial events.

Series VII   Policy Office
Boxes 693-699

The Policy Office was responsible for coordinating the Governor’s policies with other governmental organizations including Tennessee entities, other state governments, and the federal government. Many subjects are covered in this series, including
TennCare, children’s healthcare concerns, and housing for the poor and infirm, but the majority of the series is dominated by environmental issues. There are many records concerning the policies surrounding Oak Ridge National Laboratories and the pollution of the Pigeon and Tennessee Rivers by the Champion Paper Company. Records in this series are arranged chronologically.

**Series VIII  Scheduling Office**

Boxes 700-795

The Scheduling Office was responsible for arranging public appearances for the Governor. The Governor’s office received many requests from organizations as well as individuals asking that the Governor make a public appearance at some event. Most invitations were declined because of scheduling conflicts. Correspondence relating to the invitations is found in the scheduling files. The tickler files are informational sheets used by the Governor for the preparation of speeches and remarks. Also included in the Scheduling Office files are the Governor’s daily speaking and traveling itineraries. The itineraries are arranged by month and year.

**Series IX  Press Office**

Boxes 796-877

The Press Office was responsible for issuing official press releases from the Governor’s office and monitoring news reports concerning issues important to the administration. The first ten boxes (796-805) of this series contain records that will be permanently retained. They contain magazines that feature interviews with the Governor or reports on the Governor or his policies; Media Packs, official information about programs and initiatives released to the press for publicity purposes; and official news releases, statements released by the Governor’s office containing talking points or announcing the administration’s official position on a particular subject. Magazines and Media Packs are arranged chronologically by date issued, then alphabetically by subject within each date. News Releases are arranged chronologically by date of issuance.

The remaining boxes (806-877) contain clippings from newspapers concerning state or national issues important to the governor. They are divided into clippings from Daily Newspapers, arranged first, and clippings from Weekly Newspapers, arranged at the end of the series. Press Clippings are arranged chronologically. These clippings are taken largely from Tennessee newspapers and are on microfilm only.

The Sundquist years, as reflected in the collection, may be summed up as follows: the first term placed emphasis on welfare reform, educational initiatives, TennCare reform, and crime packages. The second term was chiefly concerned with taxation reform, and was dominated by the income tax controversy, an issue for which the Sundquist administration is likely to be best remembered.
Biographical Sketch

Donald Kenneth Sundquist (born March 15, 1936), Tennessee politician, served as the 47th Governor of Tennessee. A Republican, he served as Governor of Tennessee from 1995 to 2003. Prior to that, he represented Tennessee's 7th Congressional district in the United States House of Representatives from 1983 to 1995.

Sundquist, who is of Swedish descent, was born in Moline, Illinois, graduated from Moline High School in 1953 and attended Augustana College in Rock Island, Illinois. In his early career, he sold class rings for Jostens. He served in the United States Navy from 1957 to 1963. Moving to Memphis, Tennessee, he became very active in the Republican Party. He chaired the National Young Republicans from 1971 to 1973.

Sundquist first attracted political attention when he served as chairman of the Shelby County Republican Party (1975–1977). He was a delegate to the Republican National Convention in 1976 and 1980. When 6th District Congressman Robin Beard ran for the Senate against incumbent Jim Sasser in 1982, Sundquist ran for the Republican nomination to succeed Beard in the district, which had been renumbered the 7th in redistricting. He succeeded in winning the nomination in August, 1982, and then defeated Democrat Bob Clement, son of former governor Frank G. Clement, in the November 1982 general election by seven points. It was the first time a Democrat had come within 10 points in the 7th District since it fell into Republican hands in 1972. (Clement later won election to the Nashville-based 5th District in a 1988 special election and served there until 2003). Sundquist was unopposed for reelection in 1984 and was reelected four more times by landslide margins in what had become a solidly Republican district. While in Congress, Sundquist established a very conservative voting record, and was a darling of conservative-oriented groups such as the National Federation of Independent Businesses and the American Conservative Union. In Congress, Sundquist was a member of the Ways and Means Committee, the Subcommittee on Trade, and the Subcommittee on Select Revenue Measures. He was vice chairman of the Congressional Technology Assessment Board.

When popular Democratic governor Ned McWherter was prevented from seeking a third term in 1994 by term limits, Sundquist seemed like the logical choice for the Republican nomination and easily won it in August 1994. He faced Phil Bredesen, the Democratic mayor of Nashville, in November, and won by almost 10 points. The margin surprised many pundits who expected this to be one of the more competitive races of the 1994 cycle. It was a big night for Tennessee Republicans, who also captured both U.S. Senate seats. They also won a majority of the state's congressional delegation for only the second time since Reconstruction.

Sundquist campaigned on a platform of welfare reform, law enforcement, and increased governmental efficiency and did propose some reforms in his first term. He pushed for the elimination of the Public Service Commission, and his "Families First" welfare reform package received national recognition for its attempt to save taxpayer money and to provide better care for needy and troubled children. He also pushed
through the general assembly a twenty-bill law enforcement package that focused on tougher sentences, capital case reform, domestic violence, and victims' rights. As Sundquist remarked on the State of Tennessee Web page (May 26, 1997), "We want to get government out of people's business and the people into the business of government." His program met with legislative success and popular approval. He won reelection in 1998 by a comfortable margin. He attracted no serious opposition within his party for renomination in 1998. His Democratic opponent, Nashville attorney and entrepreneur John Jay Hooker, was regarded at this stage in his career as a perennial candidate and gadfly rather than a serious contender, and Sundquist won reelection with almost 69% of the vote.

Immediately upon his reelection, Sundquist set out to raise more revenue for the state, which had traditionally been one of the lowest-tax jurisdictions in the country. His tax reform plan included a state income tax, previously regarded as political suicide in Tennessee. His popularity plummeted with this proposal. The income tax issue dominated Sundquist's second term, but was never passed. Sundquist became very isolated politically. Several of his original conservative supporters, such as State Senator Marsha Blackburn, led street demonstrations against him. Many leading figures in his own party publicly disavowed him. But his second administration was not without some accomplishments, including the creation of the Department of Children’s Services, the replacement of the Public Service Commission with the Tennessee Regulatory Authority, and a proposed overhaul of the state welfare system.

GOVERNOR DON SUNDQUIST PAPERS
AUDIO/VIDEO MATERIALS,

1995 - 2003

(GP 55)

Processed by:

Greg Yates
Archival Technical Services

Location: III-A-4-5v
SCOPE AND CONTENT NOTE

Consists of audio and video materials dealing with the administration of Governor Don Sundquist. Many different topics are covered in these materials ranging from economic/tax issues to natural disasters within the state. A sampling of specific topics covered include the tornado outbreak in East Tennessee in 2002, Arlington Development Center in West Tennessee, changes to the child support payment system in Tennessee, tornado that hit downtown Nashville in 1998, the Tennessee Lottery proposal, tax reform proposals by Governor Sundquist, tourism, inauguration of Sidney McPhee as President of Middle Tennessee State University, the moving of the Houston Oilers football team to Nashville and subsequent name change to the Tennessee Titans, TennCare, and production of a movie in East Tennessee originally titled “Rocket Boys” but changed to “October Sky” before being released to the public. Other items on video include the State of the State/Budget Address for 1998 - 2000 and 2002, and Governor Sundquists’ remarks to open an Extraordinary Session of the Legislature on November 1, 1999. Many other topics are covered, if only for very brief news story segments. Also, there are materials in the collection that do not directly relate to the work of Governor Don Sundquist, but seem to have been kept either because Governor Sundquist was interested in the topic, or were kept as background materials related to specific topics. The Container List for this collection gives an extensive listing of the materials in this collection.

The audio/video holdings in this collection give interesting insight into the administration of Governor Sundquist and serve as an excellent supplement to the paper records of this collection. The collection of audio and video materials is rather extensive and covers almost every major issue that occurred during this administration.

All audio and video materials in this collection are being stored in the climate controlled vault at the Tennessee State Library and Archives. Before using these materials, please allow the materials to be removed from the vault for 24 hours to allow the tape to acclimate to room temperature to help protect and preserve the tape.

A letter accompanying the tape is included in the tape case. 1997. VHS. TRT 00:11:05.
SCOPE AND CONTENT NOTE

The Governor Don Sundquist Papers, 1995-2003 Addition consists of nine linear feet and one oversize box of records related to the functions of the governor’s office during Don Sundquist’s term as governor. It consists of Eccentric Correspondence, Legal Office, Legislative Office, and Scheduling Office records. Eccentric Correspondence is made up of unusual letters received by the Governor’s office, separated from standard correspondence by the office administrative staff, and arranged in alphabetical order by the name of the sender. Legal Office consists of clemency cases from previous administrations, settlement and legal information from the Attorney General’s Office, and court documents related to the Robert Glenn Coe death penalty case. The Scheduling Office records consist of event requests sent to the Governor, most of which were declined. An additional .5 feet of records consists of various materials related to topics such as Civil War Battlefields, an Election Certification for Hancock County, and the audit reports for the cities of Newport and South Carthage.

The Addition also includes one and a half linear feet of photographs consisting of photographs of the governor or sent to the governor. Topics of these photographs include the retirement of long-serving comptroller William Snodgrass, public events such as bill signings, and the governor’s tours of disaster sites such as the tornado that struck Nashville in 1998.

The Addition also includes a single box of oversized materials containing blueprints of sites under construction, posters and articles concerning the governor, and artifacts from Sundquist’s time in office including a proof of the Tennessee license plate designed during Sundquist’s term.

Refer to the finding aid for the Governor Don Sundquist Papers, 1995-2003 (GP 55) for additional biographical and agency history information concerning Governor Sundquist and his activities as governor.
